

IN-SCHOOL ART WORKSHOP

ART – ENVIRONMENT - SUSTAINABILITY

View the environment through the eyes of an artist!

Engage your Stage 2 and 3 students in a hands-on workshop conducted at your school. During the workshop students will create artworks in a series of environmental art activities that include the following techniques;

- **Printing** – explore the patterns of nature using paint as a print medium
- **Paper making** – recycle / transform the everyday into the unique
- **Create 3D impermanent installations** – utilising natural objects, reflection and light
- **Photography** – capture and preserve your artwork

Syllabus Links: Creative Arts
