

Environmental Education / Team Building Camp @ Brewongle

The Hawkesbury is well known for its ancient geography and its diverse and unique mix of landscapes. A visit to the centre will leave you with lifelong memories of the beautiful scenery, the 1878 school setting, the Hawkesbury River and surrounding forests and food that you could eat straight from the garden.

This two day program is suitable for Stage 2 and 3 students.

Day one will see the students solve our Eco Mystery - The Tawny Tragedy. Day two focusses on fun teambuilding activities with our initiative challenges as well as discovering our old classroom and convict trails.

Activities include:

Eco Mystery: Students are presented with information regarding the mysterious death of a tawny frogmouth. They must conduct a thorough investigation into the three essential components for life – water, food and shelter.

Sal's Discovery Party: Discover the secrets of our 1878 classroom via a diary of a former student (fictional) and follow her adventures via the old convict track to the river for morning tea.

Initiative/teambuilding challenges: Master our ping pong challenge, magic carpet squares, blindfold course and others.

Brewongle can cater for 48 students who are accommodated in 4 x A-frame huts. By utilising our tents we can cater for a further 8 students.

Teachers and parents stay in our purpose built and very comfortable teacher accommodation!

You can choose for us to supply all meals and prepare the food for your staff to cook by utilising the BBQ and the kitchen facilities, otherwise you may choose to do the shopping, preparation and cooking yourself.

Evening activities can include a campfire (weather permitting), a wildlife presentation and spotlighting.

Contact Brewongle EEC for pricing and available dates.
